What the Broadridge Interns This Past Summer Had To Say...

On Most Memorable Training: *"The Career Path training was by far the most valuable for me. Being young and crazed about where I am going to be in the not too distant future, it was a comforting experience to see successful people within the company tell us about their early career confusion and uncertainty. It helped me to apply a more realistic perspective on the fears I have towards my personal career path."*

-Seth Allen, St. John's, Senior

On the Experience: *"I gained a great deal of knowledge this past summer, it is incredible how much I learned during the 10 week program. I just wish I already graduated so I could work here full-time because this company is surely the best company to work for, I loved every second of it!"*

-Miguel Bernadin, Stony Brook, Senior

On the Experience: *"Everyone within the Internship Program and in my department was eager to answer any questions I had. It was truly beneficial to gain real world experience while continually learning new skills through the vast array of trainings the internship had to offer. I look forward to recommending this program ."*

-Steve Gonzales, Villanova, Senior
